Any ambiguities in these Terms shall be construed in the light most favorable to Rate ICO

Crypto tokens, such as Stars, are a fairly new and relatively untested technology. In addition to the risks mentioned in this document, there are additional risks that the Rate ICO team cannot predict. These risks may emerge in other forms rather than those indicated here. Technical innovations, such as the development of quantum computers, may pose a danger to cryptocurrencies, including Stars tokens.

Stars tokens are not an official or legally binding investment of any kind. Due to unforeseen circumstances, the objectives set forth in this document may be amended. Despite the fact that we intend to reach all the goals described in this document, all persons and parties involved in the purchase of Stars tokens do so at their own risk.

Airat Zagidullin, Founder, Rate ICO - "Despite all of the above, we will do our best to implement this platform. Because this is perhaps the only way to competently adjust the ICO market."
